Notes:
[1] Data for April 2017 are preliminary.
Figures may not add up to totals due to rounding.

Note to Readers:
Please note that the percentage changes are calculated using unrounded sales figures. Readers should also be aware that the percentage change figures for Nunavut are a reflection of the relatively small volumes of retail sales. If they were to continue to increase over a number of reporting periods and /or remain at a higher level, that would be an indication of increased economic activity.
